PROFESSIONAL SUMMARY

Currently building: human-approved AI agents for IT operations, MCP automation and Swift tools for the Mac fleet.

Apple fleet and IT automation engineer leading the Jamf & Automations team at a global conversational-AI company. Runs **550+ Macs** on Jamf Pro, builds native macOS tools in **Swift**, and automates security work end to end: critical vulnerabilities down **95% in 60 days** and new-Mac setup cut from **2+ hours to under 30 minutes**.

PROFESSIONAL EXPERIENCE

Omilia Ltd — Athens, Greece (remote) · Sep 2024 – Present

Apple Fleet & IT Automation Engineer — Team Lead, Jamf & Automations · Jul 2026 – Present

- Lead the Jamf & Automations team (an IT engineer and B2B contractors) and the Jamf Pro modernisation programme across **550+ Macs**.
- Cut critical vulnerabilities by **95% in 60 days** by turning Rapid7 findings into automated Jamf remediation; created self-healing for Macs that drop out of management.
- Built native macOS tools in **Swift** (IT Support menu-bar app, fleet inventory app) and deployed the Kerberos SSO Extension fleet-wide.
- Rolled out **Claude Enterprise** and **Claude Code** via MDM-managed settings and MCP allow-lists; led SIEM log forwarding into **Microsoft Sentinel** and the AutoPkg pipeline.

IT Engineer · Sep 2024 – Jun 2026

- Built zero-touch Mac onboarding (Apple Business Manager + Jamf): setup from **2+ hours to under 30 minutes**; hardened the fleet to **CIS Benchmarks** ahead of **PCI DSS** and **SOC 2** audits.
- Brought **Check Point Harmony EDR** current on all active endpoints and removed the FileVault blade without data loss; automated TLS renewal (ACME DNS-01) for Proxmox, ESXi, iLO and Cisco ISE.
- Integrated Jamf → Jira Assets, Slack → Jira requests and HiBob → Jira joiner/leaver automation; drove **Google Gemini** and **Atlassian Rovo** adoption in IT.
- Resolved **486 tickets** (median **1 day**) and wrote **50+** Confluence guides for the team and for self-service.

Hellenic Army — Rethymno, Greece · Nov 2025 – Aug 2026
IT Operations & Administrative Support (military service; Omilia role kept part-time): server patching, Active Directory, networking and personnel database modernisation.

KEEP EAT HEALTHY — Koropi, Greece · May 2022 – Nov 2025
IT Support & Infrastructure Coordinator (freelance): owned IT for a hybrid office — network, endpoint security, hardware lifecycle, Google Workspace and WordPress.

Additional Experience · 2020 – 2024
IT Support Specialist at ANEMOMYLOI ANDROS AE (part-time, remote) · **Web Developer** (freelance, client sites end to end) · **Network Technician** at Weballdesign (school network installs)

TECHNICAL SKILLS

Apple & MDM: Jamf Pro (admin, API), macOS, Apple Business Manager / ADE, FileVault, Kerberos SSO, AutoPkg, Installomator

Security: Check Point Harmony EDR, Rapid7, CIS Benchmarks, Microsoft Sentinel, Duo MFA, TLS automation, PCI DSS, SOC 2

AI & Automation: Claude Enterprise & Claude Code, MCP servers, n8n, Google Gemini, Atlassian Rovo, GitHub Copilot

Code & Platforms: Swift, Bash/zsh, Python, PowerShell, REST APIs, Git · Google Workspace, Slack, Jira Service Management, Jira Assets, Confluence, HiBob, Active Directory, Cisco ISE, ESXi, Proxmox

CERTIFICATIONS & LICENSES

Jamf Certified Tech – Jamf Pro (Jamf 200) (2026) · **ITIL 4 Foundation** (PeopleCert) · **Professional License – IT & Computer Science Engineer** (TEE, 2026) · **Career Essentials in Generative AI** (Microsoft) · Next: **Jamf 300**

EDUCATION & LANGUAGES

M.Eng. (Integrated Master's), Computer Science & IT Engineering · 2019 – 2025 · University of West Attica (UNIWA)
Thesis: Radio-over-Fiber networks for 5G (UniWA repository) · Erasmus+ exchange, SRH Hochschule Heidelberg (2023)
Languages: Greek (Native) · English (C2) · German (B2)

Building secure, automated, AI-augmented IT systems.
